Amardeep Dwivedi

React Developer | MERN Stack Developer | AI Integration | 3+ YOE | NP: 1-2 Month

Chandigarh, India | +91 8964051727 | amardeepdwivedi1494@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software Development Engineer with 3+ years of experience in Frontend and Full Stack development, specializing in building scalable, high-performance web applications using React, Next.js, Node.js, and MongoDB. Strong expertise in JavaScript, browser internals, state management, REST APIs, secure authentication, and performance optimization. Experienced in end-to-end feature development, debugging, with hands-on experience integrating Gen AI and Gemini API. Focused on solving real-world business problems through efficient, maintainable, and user-centric solutions.

TECHNICAL SKILLS

- **Fundamentals**: Basics of DSA, System Design, DBMS, OS, Networking
- **Languages**: JavaScript, TypeScript, Core Java, HTML
- **Frontend**: React, Next.js, Redux Toolkit, TanStack Query, Tailwind CSS
- **Backend**: Node.js, Express.js, REST APIs, GraphQL, Socket.IO
- **DB & Cloud**: MongoDB, Firebase, Basics of MySQL, Cloudinary, AWS
- **AI & GenAI**: Gemini API, Generative AI, AI Chatbot Integration

PROFESSIONAL EXPERIENCE

➢ Suffescom Solutions Inc | MERN Stack Developer — Dec. 2025 – Present | Mohali, PB

- Developed and implemented MERN-based features aligned with client requirements and business workflows.
- Integrated APIs and optimized application performance for scalable and maintainable solutions.

➢ Codeverse IT Pvt. Ltd. | Junior React Developer — July 2025 – Nov. 2025 | Indore, MP

- Developed responsive and reusable UI components using React.
- Integrated REST APIs and worked on features, validations, and bug fixes.

➢ Encanto Technologies | Associate Software Developer — April 2023 – June 2025 | Indore, MP

- Primarily worked on React frontend development, building responsive UI components and application workflows.
- Contributed to Node.js/Express backend features and gained practical MERN experience.

PROJECTS HIGHLIGHTS

Suffescom Solutions Inc | MERN Stack Developer — **Dec. 2025 – Present | Mohali, PB**

➢ Notary Platform – Digital Notary System

- Built Admin and B2B/B2C portals with role-based access for digital document processing.
- Connected payment gateways, real-time chat, and video calling for online notary services.
- Cut frontend load and rendering overhead using React.memo, useCallback, and lazy loading.

➢ PayTrack-360 – Business Management Platform

- Created role-specific panels for Admin, Organization, Manager, and Employee operations.
- Addressed fragmented employee records through a centralized business management platform.
- Configured payment methods and refined API/state handling for reliable transactions and data flow.

➢ Institute on Governance – Government Survey Platform

- Fixed critical UI defects affecting government survey operations.
- Delivered new client-requested features across existing survey modules.
- Resolved frontend–backend inconsistencies to maintain reliable survey submissions.

➢ Cardio RPM – Remote Patient Monitoring System

- Reduced avoidable hospital visits through online patient health monitoring.
- Enabled doctors to review patient health data remotely.
- Increased admin efficiency by ~20-30% through better rendering and state handling.

Codeverse IT Pvt. Ltd. | Junior React Developer **July 2025 – Nov. 2025 | Indore, MP**

➢ Gaming Platform – Gaming Management System

- Contributed to responsive React interfaces for gaming application workflows.
- Connected frontend features with backend services and modularized application logic.

Encanto Technologies LLP | Associate Software Developer **April 2023 – June 2025 | Indore, MP**

➢ Dawa Bazar – B2B Medical E-Commerce

- Centralized medicine, vendor, and order administration in a React-based dashboard.
- Connected REST APIs for pharmaceutical product and order operations.
- Refined admin efficiency by optimizing UI rendering and state management.

➢ Edu Smart – LMS Platform

- Simplified student learning and progress tracking by enhancing LMS dashboards and student modules
- Refined dashboard rendering and state handling for administrative tasks.
- Reduced application loading time by ~20-30% using caching, query tuning, and code-splitting.

➢ Accompanied – Social Event Website

- Helped users discover social events and connect with people sharing similar interests.
- Strengthened admin workflow efficiency through efficient UI rendering and better state management.
- Developed interactive features for event creation, user participation, and social engagement using the MERN stack.

EDUCATION

- Bachelor of Engineering (Mechanical Engineering) – RGPV University, Bhopal, M.P. | CGPA: 7.3

ACHIEVEMENTS

- Served as Discipline In-Charge during high school, demonstrating leadership and responsibility.
- Successfully transitioned from Mechanical Engineering to the IT industry and built a career in Software Development.
